Art Unit: 1612

Claims 1-25, 27, 30, 32, 34 and 36-58 are presented for examination.

Claims 1-25, 27, 30, 32 34 and 36-58 are rejected under 35 U.S.C. 103(a) as being unpatentable over Peterson et al. (US 5,607,942) in view of Cagle et al. (WO 90/01933) for the reasons set forth on pages 2-5 of the office action of April 4, 2007.

Applicant's arguments and declaration have been carefully considered, but are not deemed to be persuasive. The declaration compares the ocular penetration of claimed compound, moxifloxacin with other fluoroquinolone antibiotics and concludes superior penetration at the concentration range of 0.1-1.0%. Although, the declaration shows the superior penetration of the claimed antibiotic over the other fluoroquinolone antibiotics, such declaration can not overcome the Peterson reference, which clearly teaches, that a person skilled in the art can pick moxifloxacin as claimed in Peterson reference and use it for the treatment of eye infection. Applicant alleges criticality to the specific concentration range of the claimed composition, without showing that the concentrations outside that range are not as effective. In conclusion: the prior art clearly teaches moxifloxacin as an antibiotic being used for treatment of different infections such as eye infection. Therefore, the suggestion of selecting such antibiotic is clearly taught by the prior art. To pick a specific concentration and show advantage in ocular penetration over the other fluoroquinolone antibiotics does not overcome the strong teaching of the prior art that such antibiotic is effective for the treatment of eye infection. The examiner will consider any further support for overcoming the obviousness rejection.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
